atc MIRROR DEMISTERS

FOR A STEAM FREE MIRROR

What Are Mirror Demisters

Mirror Demisters are a simple efficient, ultra slim heating pad which fits inconspicuously behind most bathroom mirrors - existing or newly installed. Once fitted, the mirror will never steam up around the area of the pad. It represents the most up to date standard of technology given a high degree of temperature stability with complete resistance to moisture, vibration, shock, dust and ageing.

Safe

Low surface temperature means NO overheating or damage, even if left on accidentally.

Economical

Running costs are almost insignificant - 20 hours for 2c! It also saves on time and cleaning materials.

Easy To Fit

Mirror Demisters are self-adhesive, fits to the back of virtually any mirror - new or existing - and simply wires into the bathroom lighting in accordance with instructions. It can also be connected to the fan or separate switch if preferred.

Maintenance and Trouble Free

Complete reliability with NO costly wire elements to break and NO hot spots.

Fully Guaranteed

5 year warranty against any manufacturing fault, providing it is fitted strictly in accordance with instructions supplied.

SELF ADHESIVE
To be placed on back of mirror

BACK VIEW
To be placed on facing wall

TECHNICAL AND DESIGN SPECIFICATIONS

Mirror demisters are available in the following standard sizes - other sizes to specification for contract orders.
For larger mirrors, multiple pads can be fitted

| OVERALL MM | Code 220/240V | NOMINAL WATTS | <ul style="list-style-type: none"> • Pad thickness - Less than 1mm (700m) • Terminal Block - 35mm dia x 7mm dept • 3 Metre twin core 0.5mm oval cable • Double Insulated, multi-layer Polymer to 10Kv • Power Rating - 200w/sq m • Voltages as above table |
|---------------|------------------|------------------|--|
| 274 X 274 | R - 1111 | 15 | |
| 274 X 574 | R - 1121 | 25 | |
| 524 X 574 | R - 2121 | 50 | |
| 524 X 1024 | R - 2141 | 100 | |

Surface temperature of the mirror is dependent on ambient room temperature. In normal conditions demister will heat to around 15°C above room temperature and will become effective in 2/4 minutes.
