

# Case Study Well Pharmacy: Low Temperature Radiant Ceiling Panel Heaters

## Client:

Well Pharmacy

## Client Requirements:

With over 780 Pharmacies, the Well Pharmacy Group is the largest independent Pharmacy Business in the UK.

A leading provider of primary healthcare, their services include healthcare advice, prescription management, and treatment for minor ailments as well as health and wellbeing products.

During a recent refurbishment of stores in the South West Region, Well Pharmacy confirmed ATC Ceiling Panel Heaters as a necessary addition for the comfort of staff and customers alike.

## Product Criteria:

- Energy Efficient Radiant Heating for Commercial Premises
- Draught and noise-free heating
- Thermostatically controlled
- Quick and easy to install to minimise interruption to the premises during refurbishment

## Product Evaluated and Chosen:

The **atc Ecosun Low Temperature Radiant Ceiling Panel Heaters** were chosen by Well Pharmacy based on their requirements.

These heaters provide an economical and draught-free means of heating in each Pharmacy. Available in two panel sizes and with a number of controller options, these heaters are ideal for any size premises.

Ecosun Heaters have reduced the heating costs for Well Pharmacy while also providing discrete and noise-free heating for staff and customers.
