Electric Radiant Heaters

Radiant heaters heat People and Surfaces

By installing mechanical ventilation or opening windows you will create air movement and air changes. Traditional heating methods such as conventional heat, heats the air which in turn heats the space or room. This is a most inefficient method of heating in these situations.

Radiant heating systems do not create air movement and therefore reduce particle movement and dust. Radiant heating provides the most hygienic method of heating the occupants and the surfaces such as desks and tables to ensure a comfortable environment. These heaters can be controllable and easily installed in ceiling or hung in rooms with high ceilings.

iLifestyle Wi-Fi Radiator

Our first Wi-Fi connected radiator, offering smart controllability, efficient heating and maximum comfort. A maintenance free option once installed.

Sun Ray RF Thermal Electric Radiator

The Sun Ray RF which incorporates Smart Radio Frequency (RF) technology and controllability is an oil-filled thermal electric radiator which incorporates unique advanced technology and controllability in one radiator, leading the way in sustainable living.

Merida RF Panel Radiator

Part of the ATC Smart family of heaters, the Merida RF incorporates advanced technology to ensure energy efficiency. Install with the Sun Ray radiator and Pacific RF Heated Towel Radiator for a sublime heating experience.

Pacific RF Towel Radiator

Part of the ATC Smart Range of products, the Pacific RF Towel Radiator provides smart connected heating, and has been designed to be used in conjunction with the Sun Ray RF and Merida RF heaters.

Almeria Eco Panel Radiator

Install and program this energy efficient digital panel heater with ease. Its sleek design makes it perfect for use in a wide variety of settings such as waiting areas, Dentist and GP offices.

Low Temperature Ceiling Heaters

Providing hygienic, economical and draught free means of heating in settings such as hospitals, clinics and dental surgeries. The ATC low temperature radiant ceiling heaters provide radiant warmth from above, designed to free up wall space that is both out of sight and out of reach.

HeatStat Room Thermostat

The HeatStat Digital Thermostat is a multi-function digital thermostat that is easy to program and control all electric heating products, including electric underfloor heating. The large, easy to read LCD screen is controlled by touch sensitive buttons allowing many control options.

Nexum RF Connected Thermostat

The Nexum is an RF connected digital thermostat which offers full controllability of any electric heating product, from underfloor heating to water heaters to panel heaters. Perfect for healthcare settings.

Undersink Water Heaters

This compact undersink water heater is the ideal solution for washrooms across the healthcare sector and can supply a number of sinks, depending on hot water demand, without the need for special taps. A cost effective solution compared to traditional vented systems.

Welcome Overdoor Heater

The Welcome Overdoor Heater provides comfortable warm air when you enter any premises. The powerful air velocity creates a barrier to the outside cold air. Ideal for the healthcare sector, this aesthetically pleasing overdoor heater has some key features that differentiates it from other overdoor heaters.

Hygiene

Hand Dryers assist Hand Hygiene

Hand hygiene is the most important measure to avoid the transmission of the Covid-19 virus and harmful germs. Washing and sanitising your hands thoroughly and frequently is essential and has proven to be a strong deterrent in the spread of the virus. After washing it is equally important to ensure your hands are completely dry. By using ATC High Speed Eco hand dryers, you can be assured of dry hands in 15 seconds.

High Speed Hand Dryers

Option 1 Tiger ECO

Hygienic, no touch operation, high speed hand dryer. Dries hands in 15 seconds. Optional In-Built HEPA filter available below.

Optional In-Built HEPA filter removes 99.97% of bacteria particles down to 0.3µm.

Option 2 High Speed Cub

Compact High Speed Dryer suited to areas of low traffic, complete with LED Countdown Indicator.

Option 3 Panther ECO

With a 5 year warranty, this durable high speed hand dryer is effective – perfect for use in washrooms across the healthcare sector. The optional HEPA filter captures 99.9% of harmful particles.

Option 4 Premium Blade

Reach new hand drying heights with the leading ATC hand dryer – long life, sleek silver design with built in anti-bacterial UV sterilisation and HEPA filter.

ECO Tap Washroom Range

The Future of Washroom Technology

With a sleek, modern design the ECO Tap is designed to complement high traffic bathrooms as a complete set of soap dispenser, auto tap, and high speed hand dryer.

Dahlia Sanitiser and Soap Dispenser

Hygienic, no touch operation, soap or hand sanitiser dispenser. Battery powered with just 6 x AA batteries required. Wall mounted in minutes. Also available as an adjustable height floor station.

To protect yourself against bacterial infection and viruses, you should frequently clean your hands with an alcohol-based hand rub or wash them with soap and water. Once your hands are cleaned you should dry them thoroughly by using paper towel or a warm air dryer.

Practical recommendations for hygiene in schools are available from ATC. For detailed information on Hygiene visit www.who.int
